

TRANSPERSONAL ART

A "Woody painting" incorporates elements of Transpersonal Art as the symbolic reenactment of the abstract imagination, images of a timeless and internal universe that are reflective in accordance with the knowledge of our time, organic expressions that demonstrate the eternal magic of the human condition.

Transpersonal Art accurately reflects the multiplicity of our reality, by expressing the realm of our primary meaning, a universal mode of consciousness that envisions life as sacred.

These images may appear mystical, literal or conceptual, because the abstract elements vary as representation of the known, the less known, and the unknown.

Whether you view Transpersonal Art as simply a mirror of ordinary biological urges or as contact with other worlds filled with living beings, what is certain, is they are our collective dreams and visions, the dramatic personae of your own imagination realized as an independent entity with a life of its own."
